LEGO® EDUCATION PROGRAM 2017

The new program has been designed in two parts:

- **Science and Technology:**
  Students explore the world of powered mechanisms.

- **Creativity and imagination:**
  Students engage with LEGO® pieces to complete puzzles, games and challenges without instructions and become Master Builders!

*As long serving primary school teachers we believe it is important to use the Australian Curriculum as a guideline to the program.*

**Key Learning Values:**

- Building and exploring real life Machines and Mechanisms
- Investigating powered machines with the motor
- Using plastic sheets for calibration and capturing wind
- Exploring gearing mechanisms with the assorted gear wheels

The 10-week course will begin in term 3, on Tuesday the 18th of July, lunchtime, at a cost of $160 per student. The course will be held at Sandringham East Primary.
